DuPont™ Tyvek® Air Cargo Covers Featured at 2011 Air Cargo Americas Show

Wilmington, Del., November 1, 2011—DuPont Protection Technologies today announced that it will be a sponsor and exhibitor at the 2011 Air Cargo Americas & SeaCargo Americas International Congress and Exhibition being held November 2 – 4 at the DoubleTree by Hilton & Miami Airport Convention Center in Miami, Fla. The company's exhibit will feature DuPont™ Tyvek® Air Cargo Covers, a product that offers superior lightweight protection for perishable and temperature-sensitive goods.

DuPont™ Tyvek® Air Cargo Covers help reduce loss of perishable items by limiting exposure to environmental elements, lowering exposure to sudden ambient temperature changes and allowing excessive moisture to escape.

“DuPont™ Tyvek® Air Cargo Covers can contribute to a company's profitability by helping reduce spoilage of temperature-sensitive cargo,” said Schuyler Arnold, North American Marketing Manager, DuPont Industrial Packaging. “The breathable, lightweight covers offer better control of temperature and moisture during shipment than traditional blankets and plastic wraps, making them ideal for shipping pharmaceutical, fruit, vegetable and floral products.”

Air cargo covers made from DuPont™ Tyvek® provide a high level of thermal protection from solar radiation to reduce the damaging effects of the heat. The reflective property of Tyvek® keeps the shipment naturally cooler than other covers on the market. The unique properties of Tyvek® allow for rapid cooling of the load when placed in chilled storage or cooling chambers, shortening cooling times.

Tyvek® Air Cargo Covers provide protection from heavy rains and are tear resistant, lightweight and easy to use. They also protect against airborne contamination such as dust, pollens and bird droppings. The covers are white, providing a secondary visible cover to help reduce the potential of theft or tampering. For additional benefits of Tyvek® Air Cargo Covers and a full list of products, visit our website at www.aircargocovers.dupont.com.

Air Cargo Americas is the largest international air cargo exhibition and congress in the Western Hemisphere. The 2011 show offers excellent opportunities for companies to market their products and services to senior air cargo executives and shippers from the Americas marketplace.

DuPont (NYSE: DD) has been bringing world-class science and engineering to the global marketplace in the form of innovative products, materials, and services since 1802. The company believes that by collaborating with customers, governments, NGOs, and thought leaders we can help find solutions to such global challenges as providing enough healthy food for people everywhere, decreasing dependence on fossil fuels, and protecting life and the environment.
