

1.A VISION OF SUCCESS

Chambers Works will be a world class environmentally sound chemical plant, serving as a role model for DuPont and the chemical industry. Our shared respect for and emphasis on protecting the environment will equal that of safety and health. We will adhere to the highest standards for the protection of our environment, employees, customers and the community.

1.B ENVIRONMENTAL POLICY

Chambers Works will strive to achieve 100% compliance with environmental regulations and commitments and will do what is necessary to approach this goal. We believe that all environmental incidents are preventable and we believe that we can drive site performance towards the goal of zero environmental incidents, emissions, spills, releases and waste generation.

- Site personnel will be familiar with their position-specific responsibilities pursuant to the DuPont Environmental Compliance Program.
- We will operate our facilities and provide products to the market place in a manner that does not harm people or the environment.
- We will operate in compliance with all federal, state and local laws, regulations, permit conditions and corporate policies.
- Each business will continually strive to reduce, or eliminate, all wastes, emissions, discharges, releases or spills.
- We will operate as a participating member of the community and will interact at national, state and local levels on environmental matters.
- We will advise the community of relevant issues via the Chambers Works Community Advisory Panel.
- We will be a participating member of state business and industry associations.
- We will work to sustain a positive reputation with the New Jersey Department of Environmental Protection via appropriate participation in NJDEP stakeholder groups and proactive communication of site conditions.
- We will participate in Corporate focus groups and/or EPA stakeholder groups where a regulatory development is expected to have a significant impact on Chambers Works operations.
