

DuPont Secure Environmental Treatment

DuPont Chambers Works Site

- Chambers Works opened in 1917—marking its 87th anniversary in 2004.
- Located on 1,500 acres—including 150-acre wildlife habitat available for educational tours—in Deepwater, NJ (Salem County).
- Site manager is John Strait.
- Chambers Works is Salem County's second largest employer with 1,200 DuPont employees and 300 contractors on site.
- Chambers Works is among the county's leading fund-raising contributors to United Way of Salem County.
- Chambers Works recently set an all-time site safety record—representing nearly 1.5 million hours of injury-free operation.
- The site sponsors and created with local educators the nationally acclaimed “Partners in Science” program—now in its third decade in Salem County classrooms.
- Teflon® discovered at Chambers Works' Jackson Labs by Roy Plunkett in 1938.
- Produced DuPont's Nobel Prize winner Charles J. Pedersen (a former Salem County resident)—who earned the prestigious award for chemistry in 1987 for his work on crown ether molecules.
- Today, Chambers Works provides 500 products and services for 17 global markets, including:
 - Key ingredients in producing life-saving DuPont™ Kevlar® products.
 - Intermediates in producing fire-resistant DuPont™ Nomex® products.
 - Secure Environmental Treatment facility—protecting the environment from direct wastes for more than 25 years by providing unique science and technology capabilities to safely and effectively treat complex industrial wastewaters.
