DuPont Generic Preshipment Notification and Hazardous Air Pollutant (HAP) Certification Form for RCRA Hazardous and Nonhazardous Wastewater (cont.)

Hazardous Air Pollutant (HAP) Certification

Instructions: Review the list of Hazardous Air Pollutant (HAP) compounds below. For each HAP compound that is or may be present in the waste, place the letter "Y" for "Yes" in the box in the column marked "Present" and indicate the maximum concentration of that compound.

If the HAP compound cannot be present in the waste, place the letter "N" for "No" in the box in the column marked "Present".

The generator must place either a "Y" or "N" in the box for each HAP compound or this form will be rejected.

Once completed and signed, FAX to (856) 540-3402.
