

HEIDELBERG DELTA Digital Work Flow To Cromalin[®] b2

LUCIDdream
software inc.
CROMAflow

HEIDELBERG
DELTA

Integration Summary: CROMAflow[®] software by Lucid Dream is required to integrate Heidelberg Delta[®] to the DuPont[™] Cromalin[®] b2. CROMAflow[®] resides on the Delta RIP and translates Delta Lists to DuPont native file format.

Hot Folders from the Cromalin[®] b2 are published and mounted at the Delta RIP. A workflow is then established to have files from Delta translated by CROMAflow and copied into the mounted volume. Spot colors are supported.

OPTIONS NEEDED: CROMAFlow[®] by Lucid Dream - Available through DuPont or Lucid Dream.

DuPont Color Proofing

The miracles of science[®]
