

**DuPont™
Galaxy™**
herbicide tank-mix

Add residual power to your glyphosate!

New DuPont™ Galaxy™ goes beyond glyphosate to provide residual, one-pass weed control in glyphosate-tolerant corn. It improves control of troublesome weeds including fall panicum, green foxtail and redroot pigweed. With two active ingredients from different herbicide groups, Galaxy™ helps protect against weed shifts and resistance. Take your weed control to a higher level this year – with new DuPont™ Galaxy™.
