

# EKC4000™ PCT

EKC Surface Treatments Line

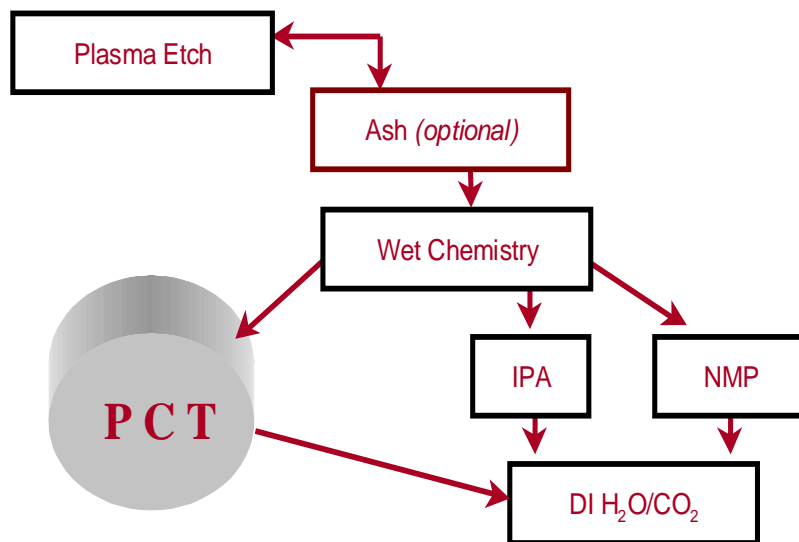

## The Purpose of this New Product

- Eliminate sources of corrosion
- Lower mobile and transition metal ions
- A Must for <math><0.25\mu\text{m}</math> processing
- Eliminate SARA Title III chemistries

## A Post Clean Treatment Solution

- Aqueous based, non-combustible and non-flammable
- ph 4.2 - 4.4
- Exceptionally high neutralization capacity
- Designed to remove mobile and transition metal “trash” ions from the surface
- Provides a route for repair of metal oxide damage
- Easy disposal via acid drains

## PCT Application Sequence

EKC4000™ PCT  
U.S. and Foreign  
Patents Pending
