

Innovative Industrial bakeware

**OPPORTUNITY TO SUBSTITUTE METAL FORMS BY PLASTIC FORMS
WITH A NUMBER OF ADDED ADVANTAGES**

Product

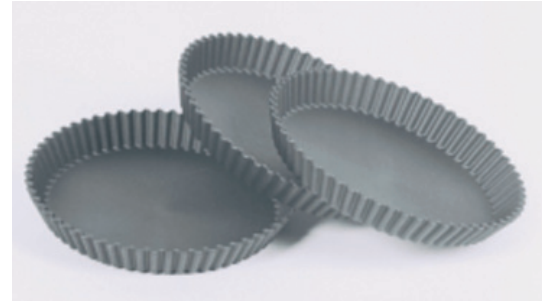

- DuPont™ Zenite® – Liquid crystal polymer
- DuPont™ Thermx® PCT, DuPont™ Zytel® HTN semi-aromatic nylon

Benefits

- Better manufacturing productivity
- Non-sticking properties so eliminating the usage of grease during baking, improved hygienic conditions
- Opportunity to develop specific shapes and include brands on the baked product
- Opportunity to use new cooking technologies in the baking process i.e. MW cooking to be able to shorten baking cycle

Status

- Commercial in muffins, Pandoro and bread baking
