

DuPont™ Fusabond® E 564

Fusabond® Adhesive resins Product Data Sheet

Description

Product Description DuPont™ Fusabond® E564 is a anhydride modified polyethylene copolymer

Restrictions

Restrictions	<ul style="list-style-type: none"> • Customer Restricted
Material Status	<ul style="list-style-type: none"> • Commercial: Active
Availability	<ul style="list-style-type: none"> • North America
Other Restrictions	Only sold to Bredero group - Shaw Pipe. CANUSA

Typical Characteristics

Uses	<ul style="list-style-type: none"> • Adhesives • Pipe Coating
Applications	Adhesive for production of shrink sleeves used in pipe coating repairs and coating of joints..

Typical Properties

Physical	Nominal Values	Test Method (s)	
Density ()	0.924 g/cm ³		
Melt Flow Rate (190°C/2.16kg)	4.0 g/10 min	ASTM D1238	ISO 1133
Thermal	Nominal Values	Test Method (s)	
Melting Point (DSC)	114°C (237°F)		
Freezing Point (DSC)	98°C (208°F)		

Processing Information

General	
Maximum Processing Temperature	290°C (554°F)

Safety & Handling

As with any hot material, care should be taken to protect the hands and other exposed parts of the body when working with molten polymer.

At temperatures above 290°C (554°F), these resins can evolve low concentrations of fumes. When resins are overheated, more extensive decomposition may occur. Because fumes produced during exposure to high temperatures may be combustible, exposure of overheated resin to atmospheric oxygen should be avoided if possible. Adequate local ventilation should be provided to remove the fumes from the work area.

Disposal of scrap material presents no special problems, and may be accomplished by landfill or by incineration by a properly operated incinerator. Disposal should comply with local, state, and federal regulations. Resin pellets can be a slipping

hazard. Loose pellets should be swept up promptly to prevent falls.

For more detailed information on the safe handling and disposal of these resins, a Product Safety Bulletin and OSHA Material Safety Data Sheets can be obtained from the Regional Office serving you.

Read and Understand the Material Safety Data Sheet (MSDS) before using this product

Regional Centres

DuPont operates in more than 70 countries. For help finding a local representative, please contact one of the following regional customer contact centers:
