

DuPont™ RelyOn® Disinfectants Fact Sheet

RelyOn™ brand products offer an easy and effective way to disinfect hands and hard, non-porous surfaces and reduce the spread of germs that can cause disease and infection.

RelyOn™ products have been designed to be both effective and provide the ultimate in convenience:

- Available as sprays, wipes, powders and tablets
- Clean and disinfect in one step
- Safe on most surfaces
- RelyOn™ disinfectant sprays and wipes are ready for immediate usage

Key Benefits of RelyOn™ Antiseptic products for hands:

- Effective against a wide range of human pathogens including Hepatitis A, B, and C viruses, MRSA, VRE, TB, Influenza, and HIV
- No sticky residue (gloves slide right over treated skin)
- Contain no triclosan, quaternary ammonium compounds (quats), chlorhexidene, bleach, or phenols
- Contain skin softening emollients so they won't dry out hands after frequent usage
- Available as a convenient 2 oz spray, individual hand wipe, or canisters of 160 hand wipes (6.5"x6.5")
- Brackets available for mounting wipe canisters for easy access

Key benefits of RelyOn® Disinfectant products for small scale disinfection:

- Solution effective against a wide range of human pathogens including Hepatitis A, B, and C viruses, MRSA, VRE, TB, Influenza, and HIV
- No evidence of creating resistant organisms
- No dilution or mixing required
- Large (10"x12"), thick (45gsm) disinfectant wipes available in convenient 65 count canisters
- Brackets available for mounting wipe canisters for easy access

Key benefits of RelyOn™ MDC products for large-scale disinfection:

- Available as a bulk powder concentrate (saving shelf space) or in tablet form for easy and accurate dosing
- Excellent shelf life (3 years for powder, 2 years for tablets)
- Working solution (1%) non irritating to skin and eyes
- Low corrosivity and non offensive, mild citrus odor
- No special disposal required

The miracles of science™
