

Fact Sheet

DuPont India at a Glance

DuPont India is a wholly-owned subsidiary of E. I. du Pont de Nemours and Company. DuPont association with India is since 1802, when the first shipment of raw materials for black powder for explosives was imported from India into the US. Today, DuPont India markets a wide range of products in varied market segments including agriculture, food and nutrition; health care; home and construction; electronics; safety and protection; and transportation and infrastructure, bringing to life its powerful philosophy of *The miracles of science™* to create a better world for all. Aligned to its global strategy of pursuing growth in emerging markets, DuPont India opened its Bangladesh office in 2010. It launched its Sri Lanka subsidiary on June 10, 2011.

Manufacturing: DuPont has production facilities in India at Savli, near Vadodara in Gujarat (for DuPont Performance Polymers, DuPont Crop Protection products and DuPont Refinish Paints), at Medchal near Hyderabad (for Pioneer® seeds), and at Madurai in Tamil Nadu (for DuPont Filaments and DuPont non-stick coatings).

R&D DuPont Knowledge Center in Hyderabad is one of the seven DuPont global R&D centers outside USA, focusing on research in agriculture & industrial biotechnology, application development in materials science and engineering design services. This center was opened in 2008 and houses three separate centers – Biotechnology Research Center (*for integrated agricultural and industrial biotechnology*) Material Research & Application Development Center and Engineering Center.

Employees: DuPont India employs about 1900 people in the country in DuPont and in our subsidiary companies as of end of 2010.

Financials: In 2010 DuPont sales in India were US\$ 700 million. DuPont Titanium Technologies, DuPont Crop Protection and Pioneer Seeds are the top 3 businesses in India.

Leadership: Balvinder S Kalsi is President - South Asia, DuPont since December 2005. His DuPont career spans about 19 years.

Fact Sheet
