

DuPont™ Krenite® S

brush control agent

For effective brush control

- DuPont™ Krenite® S brush control agent is strong on oak, hickory, elm, pine, willow, birch, blackberry, sweetgum, Chinese tallow and black locust.
- Minimal soil activity on wood species.
- Can be used for side trimming.
- Can be used on floodplains, terrestrial areas of deltas and low lying areas when water is not present. See label for details.
- Selective to many understory species.
- Krenite® S is not a federally restricted-use product.
- No off-target root pickup.
- Nonvolatile, no odor.

Here's how to apply

High-volume handgun

Use 2 to 3 gallons of Krenite® S plus 1 to 2 quarts of surfactant per 100 gallons of water.

Fixed-boom rate per acre

Use 2 to 3 gallons of Krenite® S plus 1 to 2 quarts of surfactant in 25 to 100 gallons of water per acre.

Low-volume backpack

Use 5 percent to 10 percent Krenite® S plus 1 percent surfactant. Apply 5 to 25 gallons of solution per acre, depending on brush height and density.

General comments

- Choose a non-ionic surfactant that has at least 80 percent active ingredient.
- Add 4 ounces of sodium gluconate per 100 gallons of hard water.
- Be sure to calibrate application to achieve labeled rates per acre.
