

# DuPont™ Escort® XP

herbicide

*For effective control of annual and perennial weeds and woody plants*

DuPont™ Escort® XP herbicide controls many annual and perennial weeds and woody plants in non-crop areas. Escort® XP may be used for general weed and brush control, and for control of certain noxious weeds on non-crop sites, ditch banks of dry drainage ditches and for selective weed control in certain types of unimproved turf grass.

## Application site information

- Escort® XP may be used on non-crop sites that contain areas of temporary surface water caused by the collection of water between planting beds, in equipment ruts, or in other depressions created by management activities.
- It is permissible to treat intermittently flooded low-lying sites, seasonally dry flood plains and transitional areas between upland and lowland sites when no water is present.
- It is also permissible to treat marshes, swamps and bogs after water has receded, as well as seasonally dry flood deltas.

- DO NOT make applications to natural or man-made bodies of water such as lakes, reservoirs, ponds, streams and canals.
- DO NOT use on irrigation ditches.

## Grazing restrictions for non-crop areas

- When used as directed, there are **NO GRAZING RESTRICTIONS** for Escort® XP for use rates of 1½ ounces per acre or less when applied to undesirable vegetation, including brush and weeds in rights-of-way that are adjacent to, pass through or transect pastures, rangeland and/or forestry sites.

## For more information

Contact your local DuPont Vegetation Management Service Center or DuPont representative to learn more about Escort® XP herbicide. And visit us on the Web at [escort.dupont.com](http://escort.dupont.com).
