

DuPont™ Telar® XP

herbicide

Weed control on pastures, range and CRP lands

DuPont™ Telar® XP herbicide has long been valued for its ability to control noxious perennials and troublesome annual weeds. It delivers foliar control and lasting residual to dramatically reduce problem weed populations and improve forage quality in pastures and rangelands.

Make Telar® XP your herbicide of choice. Apply it at rates up to 1.33 ounces per acre without grazing restrictions.

Benefits of using Telar® XP

- **Effective control** of henbit, mayweed, wild mustard, curly dock, marestail, buttercup and other problem broadleaf weeds.
- **Excellent grass safety:** Provides strong foliar activity and lasting residual control of many undesirable weeds without harming many desirable grass species. Consult the label for grass tolerance information.
- **No grazing or hay harvest restrictions** for any livestock, including lactating animals, with application rates up to 1.33 ounces of Telar® XP. No enclosure is required for any animals.
- **Application flexibility:** Can be applied by fixed wing aircraft, or by helicopter for those tough-to-reach places.

Major weeds controlled

Following is a partial list of the weeds controlled by Telar® XP when applied at a rate of ¼ to 1 ounce per acre (see label for specific weed species use rate):

Buttercup	Henbit
Chickweed, common	Marestail
Dandelion*	Mayweed**
Dock, curly	Mustard: treacle**, tumble, wild
Eveningprimrose, cutleaf	Shepherd's-purse**
Flixweed	Sunflower
Goldenrod	Thistle: musk, Scotch
Groundsel**	

* Partial control

** Except California

Tank mixtures

Telar® XP can be used in combination with other herbicides to broaden the spectrum of weeds controlled.

Tank-mix partner	Application rate
2,4-D	1 pt-1 qt/A
Tordon 22K	8-16 oz/A
Remedy	8 oz/A
