

DUPONT™ PROFESSIONAL LANDSCAPE FABRIC STOPS WEEDS IN THEIR TRACKS

OUR PROFESSIONAL LANDSCAPE FABRIC HAS THE STRENGTH TO HANDLE TOUGH JOBS AND HIGH EXPECTATIONS

DuPont™ Professional Landscape Fabric is so much more than weed control fabric. Because basic weed control is just the start. This high-strength, commercial-grade fabric stops some of the toughest weeds and controls the unwanted spread of perennials. It works hard outside of the garden, too, controlling erosion and increasing soil stability in landscape and light construction jobs.

KEEPS WEEDS OUT AND HEALTHY SOIL IN

For reliable weed control in planting and foundation beds, look to DuPont™ Professional Landscape Fabric. Designed to be tough and tear resistant, it nevertheless allows water, air and nutrients through. So while unwanted weeds are stopped in their tracks, your other plants and soil stay healthy and viable.

PROFESSIONAL LANDSCAPE FABRIC ALSO CONTROLS EROSION

This is also the fabric to use when you're installing landscape features. With its strong but permeable fabric construction, it controls erosion by holding soil in place while allowing drainage through the hardscaped area.

HARDWORKING ON ANY JOB SITE

- Foundation beds
- Perennial gardens
- Around trees
- Under pavers, patios and decking
- Behind retaining walls
- Around drainage pipes
- Under mulch in play areas

DUPONT™ PROFESSIONAL LANDSCAPE FABRIC STOPS WEEDS IN THEIR TRACKS

EASY TO INSTALL

DuPont™ Professional Landscape Fabric is made from rugged spun-bonded polypropylene that resists tearing and unraveling. It's flexible and easy to work with, and lays down quickly and easily.

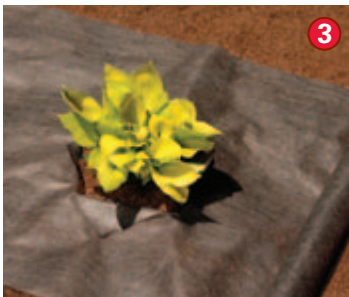

1

Unroll — Unroll DuPont™ WeedFree™ Premium Weed Control Fabric across beds, over existing plants or over new planting areas.

2

Cut — Cut an “X” over each plant area with scissors or a utility knife.

3

Roll — Roll back the triangular slits, and gently tuck the fabric back around the plant stem to cover the ground properly.

4

Secure — Secure with DuPont™ Landscape Anchor Pins. Cover over with 2”–3” of mulch or stone to anchor and protect the fabric.

AVAILABLE IN SEVERAL SIZES

Professional Landscape Fabric is provided on rolls that are easy to transport, store and use. Several lengths and widths are available to fit your job needs.

- Basic wts (oz): 1.6, 2.0, 2.4, 3.0
- Standard widths: 3', 4', 6', 12'
- Standard lengths: 50', 100', 300'

Other custom styles may also be available.
