

DuPont Controlled Environments

LISTING OF CARDINAL HEALTH PRODUCTS DISTRIBUTED BY DUPONT

On May 5, 2008, DuPont purchased the Industrial Apparel line of Cardinal Health's Scientific and Production Products business, which manufactures and markets products used in cleanrooms and other controlled environments, including the Tyvek® Micro-Clean® product line.

As part of the purchase agreement, DuPont also distributes a number of additional Cardinal Health products that compliment the DuPont product line. These products remain Cardinal Health products, but are being distributed by DuPont into industrial controlled environments.

Below is a full listing of Cardinal Health products distributed by DuPont for industrial use. Additional information about these products is available from Cardinal Health.

Apparel and Accessories

Coveralls

The information set forth herein reflects laboratory performance of fabrics, not complete garments, under controlled conditions. It is intended for information use by persons having technical skill for evaluation under their specific end-use conditions, at their own discretion and risk.

Anyone intending to use this information should first verify that the garment selected is suitable for the intended use. In many cases, seams and closures have shorter breakthrough times and higher permeation rates than the fabric. If fabric becomes torn, abraded or punctured, end user should discontinue use of garment to avoid compromising the barrier protection. SINCE CONDITIONS OF USE ARE OUTSIDE OUR CONTROL, WE MAKE NO WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING WITHOUT LIMITATION, NO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE AND ASSUME NO LIABILITY IN CONNECTION WITH ANY USE OF THIS INFORMATION. This information is not intended as a license to operate under or a recommendation to infringe any patent, trademark or technical information of DuPont or others covering any material or its use.
