All disinfection procedures should be performed on a more frequent basis in the event of outbreak/confirmed illness (MRSA, Hepatitis, Influenza, Norovirus, etc).

- Consider a stockpile of hand antiseptic sprays and wipes for officers/staff to take home in event of outbreak.
- These products are not specifically designed to decontaminate medical waste/blood/body fluids, but can be used as important tools in their clean up. Special handling instructions, PPE, and spill clean up kits should be considered.
