

For burndown control

# DuPont™ Basis®

herbicide

*The essential ingredient for success in no-till, reduced-till and conventional corn*

Control tough weeds early, before they impact your yield. Applied as a burndown in the early spring, DuPont™ Basis® herbicide delivers lasting early-season residual management of foxtails, fall panicum, lambsquarters and many other weeds.

### Key benefits

- Burndown of existing vegetation allowing for a clean seedbed to plant into.
- Works well under cool, early spring temperatures for consistent control.
- Helps prevent potential yield reduction that can occur when grasses are left unchecked.

### Rate recommendation

- Basis® 0.33-0.5
  - + atrazine 0.5-1.0 lb ai/A
  - + 2,4-D LVE 1 pt/A
  - + 1% v/v COC
  - + AMS 2 lbs/A

### Application information

- For best control of emerged weeds, apply Basis® to grasses < 2" tall, broadleaf weeds < 3" tall and winter annual/biennials < 6" tall.

### For more information

See your DuPont retailer or call your local DuPont representative for more information about Basis® herbicide from DuPont. And visit us on the Web at [basis.dupont.com](http://basis.dupont.com).

### Weeds controlled with 0.33-1.0 oz/A Basis® + 2,4-D LVE 1 pt/A + atrazine 1 lb ai/A

Grasses	Maximum recommended height (in inches)	Broadleaf weeds**	Maximum recommended height (in inches)
Barnyardgrass	2	Dandelion	6
Crabgrass, large	<½	Hemlock, poison	12
Cupgrass, woolly*	1	Lambsquarters, common	3
Foxtails: bristly, giant, green, yellow	2	Mustard, wild	3
Oat, wild	<3 leaf	Pigweed, redroot	3
Panicum, fall	2	Ragweed: common, giant	2
Quackgrass*	8	Smartweeds, annual	3
Shattercane	4	Sunflower, wild	3
		Velvetleaf	3

\* For best results, use COC + AMS fertilizer. Cultivation or re-treatment may be required.

\*\* Applications to broadleaf weeds in the cotyledon stage may result in less than satisfactory control. Broadleaf weeds that emerge after application may not be controlled by Basis®. A properly timed cultivation or follow-up application of a broadleaf herbicide may be required.

Atrazine is a restricted-use pesticide.
