

DuPont™ Accent®

herbicide

Control escaped grasses and protect your crop with Accent®

Apply DuPont™ Accent® herbicide to help rescue your corn field from escaped grasses and increase your potential to harvest more bushels per acre

- Controls labeled grasses that have emerged.
- Helps prevent yield loss due to heavy grass pressure.
- May be tank mixed with many corn herbicides registered for postemergence use.

Rate recommendation

- Accent® 0.5-1.0 oz/A
+ 1% v/v COC
or
+ 0.25% NIS

Application information

- Accent® may be applied to field corn as a rescue treatment for the control of escaped grasses, or as a directed postemergence application on corn that is taller than 20" or which has more than 6 leaf-collars which ever occurs first.
- For corn 20"-36" tall or up to and including 10 leaf-collars, apply Accent® with drop nozzles only and avoid spraying into the whorl of the cornstalks.

For more information

See your DuPont retailer or call your local DuPont representative for more information about Accent® herbicide from DuPont. And visit us on the Web at accent.dupont.com.

Weeds controlled with 0.66 oz/A Accent®

Grasses	Maximum height (in inches)	Broadleaf weeds	Maximum height (in inches)
