

DuPont™ Kocide® 3000

fungicide/bactericide

The best copper protection is now even better!

When it was introduced, Kocide® 2000 fungicide was superior to all other copper fungicides on the market. Now, new advances in its state-of-the-art formulation technology make a new DuPont™ Kocide® 3000 fungicide even better.

Kocide® 3000 delivers the superior performance that fruit, tree nut, vine and vegetable growers have come to demand from Kocide® brands, but with less copper, for more environmentally favorable disease control.

Kocide® 3000 safety and protection benefits

- **Signal word:** Caution.
- **Re-entry interval (REI):** 24 hours.
- **PPE requirements for applicators and other handlers:**
 - Long-sleeved shirt and long pants.
 - Shoes plus socks.
 - Chemical-resistant gloves made of any waterproof material, such as natural rubber, selection Category A.
- **PPE benefits:**
 - No protective eyewear.
 - No headgear or respirator.
 - No early re-entry eyewear or headgear.
 - No 7-day eye flush container.
 - No 7-day worker oral or written warning.

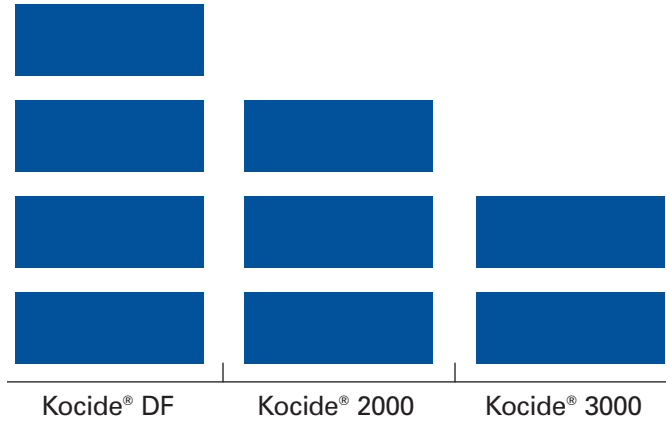

The benefits of choosing Kocide® 3000

- **Improved bioactivity:** Delivers more disease control per pound than any other copper fungicide/bactericide. Less material to store, transport, handle and apply.
- **Favorable environmental profile:** Less metallic copper is applied — a positive step to addressing concerns by state and federal agencies.
- **Improved control of diseases:** Grow more marketable fruit, tree nut, vine and vegetable crops. Increased bioactivity, excellent dispersion and long residual all add up to make Kocide® 3000 the best copper fungicide your money can buy.
- **High-quality DF formulation:** Mixes instantly in water for optimum dispersion and improved low dust characteristics compared to previous formulations.
- **Improved sprayability:** Low foaming characteristics.
- **High spray-tank stability:** Stays in suspension longer.

DuPont™ Kocide® 3000 delivers even more, with less

Pound for pound, Kocide® 3000 delivers more bioactive copper so you can get more disease control with less formulated product per acre. For example, every pound of Kocide® 3000 equals:

- 2 pounds of DuPont™ Kocide® 101 or DF.
- 1½ pounds of DuPont™ Kocide® 2000.
- 1½ pints of DuPont™ Kocide® 4.5LF.

A 10-pound pack of Kocide® 3000 will treat the same area as a 15-pound pack of Kocide® 2000, a 20-pound pack of Kocide® DF, and 1½ gallons of Kocide® 4.5LF.

Plus, for added flexibility, Kocide® 3000 offers two packaging options: a 4-pound pack, and a 10-pound pack.

For more information

Contact your local DuPont crop protection retailer or representative to learn more about how you can get even better control and produce more marketable fruit, tree nut, vine and vegetable crops with Kocide® 3000 fungicide. And visit us on the Web at kocide.dupont.com.

Improved control while applying fewer pounds per acre
