

DuPont™ Synchrony® XP

herbicide

For a boost in postemergence weed control in a glyphosate-tolerant soybean program

DuPont™ Synchrony® XP herbicide can help launch your attack on weeds. The use of glyphosate for weed management ushered in a new era for soybean growers. Incorporating Synchrony® XP into your soybean program allows a soybean program to be ready for what glyphosate alone isn't.

Key benefits

- Provides an alternate mode of action to glyphosate, which helps deliver more consistent performance on tough broadleaf weeds.
- Improved burndown control on weeds such as dandelion, lambsquarters, yellow nutsedge, morningglory and ragweeds.
- Affordable tank-mix partner.

Rate recommendation

Synchrony® XP 0.375 oz/A
 + glyphosate
 + NIS 0.25% v/v
 + AMS 8.5-17 lbs/100 gal

Application information

- Synchrony® XP applied postemergence to 1-4" weeds that are actively growing.
- See the glyphosate manufacturer's label for specific ammonium sulfate and surfactant recommendation.
- May be applied after first trifoliolate on non-STSTM soybeans, but no later than 60 days before soybean maturity.
- May be tank mixed with DuPont™ Asana® XL insecticide for control of soybean aphids, bean leaf beetles and many other insects. Refer to label for use with other insecticides.

Weeds controlled postemergence with Synchrony® XP 0.375 oz/A + glyphosate*

Weeds	Weed height (in inches)	Weeds	Weed height (in inches)
Barnyardgrass	6	Nutsedge, yellow	6
Cocklebur	8	Panicum: fall, Texas	10
Corn, volunteer (non-glyphosate tolerant**)	20	Pigweed: redroot, rough	12
Crabgrass species	10	Pigweeds, other	8
Dandelion	4	Ragweed: common, giant	8
Foxtail species	10	Sesbania, hemp	4
Jimsonweed	10	Sicklepod	4
Ladysthumb	8	Sida, prickly	4
Lambsquarters	6	Signalgrass, broadleaf	4
Morningglory: entireleaf, ivyleaf, pitted, tall	4	Smartweed, Pennsylvania	8
Nightshade, eastern black	5	Sunflower	8
		Velvetleaf	4
		Waterhemp species	4

* Equivalent of 1 qt/A of 4 lbs/gal glyphosate.

** DuPont™ Assure® II herbicide is required to control glyphosate-tolerant corn. See the Assure® II label for rate and tank mix recommendations.

Refer to label for use on non-genetically modified soybeans.

Asana® XL is not registered for use on soybean aphids in California.

Asana® XL is a restricted-use pesticide.
