

DuPont™ Lannate® LV

insecticide

Fast-acting, broad-spectrum control in wheat, barley and many other crops

Take control of insects quickly with DuPont™ Lannate® LV insecticide:

- **“Lightning-fast” activity:**
Lannate® LV goes to work quickly — stopping insect damage almost immediately. In fact, DuPont tests indicate that 40% mortality of some species may occur within 15 minutes of direct contact and ingestion.
- **Broad-spectrum control:**
Lannate® LV is effective on a wide range of insects including armyworms, cereal leaf beetle and aphids.
- **Resistance management tool:**
Some insects have already developed resistance to the newest insecticides on the market. Lannate® LV, a carbamate, can add another mode of action to help manage the threat of resistance.
- **Easier on you:** Lannate® LV works over a wide range of temperatures. It also offers a short re-entry interval so you can get back into the fields quickly.

Here’s how it works

For wheat and barley pests including aphids, armyworms and cereal leaf beetle:

Use rates:

$\frac{3}{4}$ to $1\frac{1}{2}$ pints per acre.

Gallage:

Lannate® LV is primarily a contact insecticide, excellent coverage is essential for control. 2-5 gallons per acre (GPA) by air or 10-30 GPA by ground.

Adjuvants:

An acidifier is recommended to lower the water pH. Spray mix should not be stored overnight in spray tank. A non-ionic surfactant (NIS) may be used if required for a fungicide tank-mix partner.

Tank mixtures:

Lannate® LV is compatible with many fungicides. It is recommended that users premix a small quantity of a desired tank mix and observe for possible adverse changes (settling out, flocculation, etc.).

Pre harvest intervals:

Lannate® LV offers a short residual on treated crops, which allows for short pre harvest intervals (PHI). PHI for wheat and barley is 7 days.

Re-entry interval:

48 hours.

For more information

To learn more about Lannate® LV insecticide contact your local DuPont crop protection retailer or DuPont representative. And visit us on the Web at lannatelv.dupont.com.

Lannate® LV is a restricted-use pesticide.
