DuPont™ Crop Protection Plus® Corn Program

*When you can't count on the weather
Count on DuPont*

Thousands of acres of corn are destroyed by the weather each year. While none of us can change the way nature behaves, DuPont would like to change the way we deal with its aftermath.

Crop Protection Plus® is a product cost replacement program from DuPont for corn growers in selected High Plains geographies of the United States¹ who apply DuPont™ Resolve® DF, Resolve® Q or Resolve® SG herbicide during the spring 2010 season. Under Crop Protection Plus®, DuPont will provide eligible growers with product cost replacement credit when a field or a majority of a field treated with Resolve® DF, Resolve® Q or Resolve® SG herbicide for corn has been so affected by drought, flood, hail, frost/freeze or fire that it is uneconomical to harvest.[†] Should this occur, DuPont will provide credit through the local retailer where purchased in the dollar amount of the in-season purchase used to treat the lost area. The credit may be applied to purchases of DuPont product the next season or the year thereafter.

No paperwork

Growers in qualifying states¹ are automatically eligible for Crop Protection Plus® when they purchase Resolve® DF, Resolve® Q or Resolve® SG herbicide for corn from a local DuPont Crop Protection retailer. Resolve® DF, Resolve® Q or Resolve® SG herbicide must be purchased between Dec. 1, 2009, and June 30, 2010, and applied at the labeled rates during the 2010 season. There are no forms to fill out or paperwork to deal with unless a request for herbicide cost replacement is filed. (See Terms and Conditions for details.)

The calm after the storm
