

Technical Specifications

DuPont™ Flashing System Product Data

PROPERTY	DuPont™ FlexWrap®
FACE SHEET	Elasticized polyethylene laminate (white)
ADHESIVE	Butyl rubber (black)
THICKNESS	70 mil (1775 microns)
RELEASE LINER	2-piece, heavy-duty siliconized paper
DIMENSIONS	178mm wide x 22.86m long
APPLICATIONS	Round top or custom shaped window / 3-D sill protection / Wall interruptions: i.e. dryer vents, hose bins

DuPont™ Flashing System Performance Testing

INSTALLED SYSTEM WATER INTRUSION TESTING (Tested with no exterior cladding)	
ASTM E-331	NO leakage at 25 and 75 Pa
ASTM E-331 after thermal aging (0.160°F)	NO leakage at 25 and 75 Pa
WATER VAPOR PERMEABILITY (ASTM E-96)	< 1 perm (< 60ng/Pa.sec.m2)
APPLICATION TEMPERATURE	Best when installed above 40°F (consult DuPont for primer recommendations)
UV RESISTANCE	Cover with 120 days Not to be used as an external flashing
