# Foxes in the henhouse

## ◀ Control multiple pests with one application

Acelepryn insecticide from DuPont features the EPA Reduced Risk classified Calteryx as its active ingredient. Acelepryn has been found to control all 10 key white grub species, as well as other pests including the annual bluegrass weevil, billbugs and caterpillars. Additionally, Acelepryn has the ability to control multiple pests with a single, early application. For more information write **116** on Reader Service Card.
