

2009 DuPont Leaders Forum on Safety and Operational Sustainability

TRANSFORMING THE WORKPLACE

DuPont Safety Resources, in conjunction with Coastal Training Technologies, will present an interactive two day forum for senior executives to share practical experiences and to learn from challenges and successes of leading organizations. The Leaders Forum is an exclusive platform for executives to leverage best practices and expert knowledge in the areas of safety, operations risk management, employee development, operational effectiveness and environmental excellence.

Who should attend

The Leaders Forum is aimed at executives who have a leading role in driving their organizations to excellence and achieving sustainable growth.

Keynote Presentations

- Linda J. Fisher, DuPont VP & Chief Sustainability Officer
- Admiral Vern Clark, retired Chief of Naval Operations
- Elliott Masie, founder of The Masie Center, and an internationally recognized futurist and researcher on workforce learning and emerging technologies
- E Scott Geller, PhD, Alumni Distinguished Professor at Virginia Tech

Interactive Panel Discussions

Two panel discussions will bring experts together from leading organizations to share their knowledge, successes and key learnings

- Safety: A Foundation for Sustainability?
- What Does It Take to Achieve Cultural Transformation?

Venue

Virginia Beach Oceanfront Hilton
Virginia Beach, Virginia

Be our guest on Sunday, August 2nd from 6:30 pm - 9:30 pm at the newly expanded Virginia Aquarium for drinks, hors d'oeuvres and a tour of the aquarium and exhibits.

Presentations by DuPont on “Transforming the Workplace”

DuPont Leaders will present strategies for increasing societal and shareholder value while reducing the environmental footprint from operations. They will share proven practices around the foundation blocks for driving sustainable growth and transforming the workplace.

- Relative Culture Strength — A Key to Sustainable World Class Safety Performance
- The Role of "Felt Leadership" in Creating a Culture of Excellence and Transforming the Workplace Culture
- Managing Operational Risks to Ensure Business Continuity: Innovative Approaches and Best Practices
- The HSE Center of Excellence: A Business Core Value
- Energy Management: A Key Component of Sustainability
- Balancing Environmental Commitments with Economic Realities: Establishing and Implementing an Environmental Strategy

Additional Tracks by Coastal Training Technologies

The Coastal Forum will bring together training professionals from around the world for two thought-provoking, concurrent events: The Coastal eLearning Forum and the Behavioral Safety Forum, featuring People-Based Safety™ and STOP™.

- Behavioral Safety Forum:
 - Network with behavioral safety experts, hear actual accounts of how these programs are working for other organizations and learn from renowned safety expert E. Scott Geller, Ph.D.
- eLearning Forum:
 - Network with Coastal eLearning System users, get hands-on training, share best practices and learn about the future of eLearning during these information-packed sessions.

The miracles of science™
