

# DuPont™ StoneTech® Professional High Gloss Finishing Sealer

## TECHNICAL DATA SHEET

### PRODUCT BENEFITS

- Two-in-one formula leaves a wet-look finish and protects against stains
- Interior use
- Easy to use, water-based formula

### RECOMMENDED SURFACES

Slate, saltillo, limestone, travertine and concrete floors. Not intended for use on glazed, polished, or non-absorbing surfaces, wood floors and decks, showers, countertops, or near pool areas.

### AVAILABLE SIZES

Quart, Gallon, 5 Gallon

### COVERAGE

100–300 sq ft per gallon, depending on porosity of surface.

### EXPECTED WEAR

3–5 years. Touch up on higher traffic areas may be required on a more frequent basis.

### TECHNICAL INFORMATION

Form:	Liquid
Specific Gravity:	1.012
HMS Rating:	2,1,0
Flash Point:	>200°F
Freeze Point:	32°F
pH:	7

### VOC CONTENT

<50 g/L

LEED points qualified product.

### DIRECTIONS

Read entire label before using. Use only as directed. Always test in a small inconspicuous area to determine appropriate application method, achievement of desired results, and to ensure good adhesion. Ensure work area is well-ventilated during application and until surface is dry. Keep children and pets out of the area until foot traffic resumes. Avoid applying in direct sunlight. Surface must be thoroughly clean, dry, and free of any sealers or coatings before application. Application to a dirty or dusty surface will affect adhesion and appearance. High Gloss Finishing Sealer should not be applied to a wet or moist surface. Avoid applying onto surfaces not intended for treatment. For new installations, sealer can be applied as soon as 48–72 hours after grouting. Fresh concrete slabs require a minimum of 28 days to cure before applying the sealer.

1. Liberally apply 2–4 even coats with a natural bristle brush, roller, or paint pad applicator. Do not apply product with a sprayer or sponge. Avoid puddling of liquid during application. Failure to apply a sufficient amount of sealer to the surface may result in an undesirable finish or degradation of the coating. More coats may be applied if desired.
2. Allow 30–45 minutes between coats or until surface is dry to the touch.
3. Surface traffic may begin 12 hours after final application; keep installation dry for a minimum of 12 hours; full cure is achieved in 24–48 hours.
4. Keep surface clean and dry as finished surfaces may become slippery when wet.

### STORAGE AND HANDLING INSTRUCTIONS

**CAUTION:** MAY BE HARMFUL IF SWALLOWED. MAY CAUSE EYE, SKIN, AND RESPIRATORY IRRITATION. Do not ingest. Avoid contact with eyes and skin. Avoid prolonged exposure to vapors. KEEP OUT OF THE REACH OF CHILDREN. Do not freeze or store above 100°F/38°C. Do not mix with other chemicals.

### EMERGENCY/FIRST AID PROCEDURES

**Ingestion:** Do not induce vomiting. Call poison control center. Call a physician immediately.

**Eye Contact:** Flush thoroughly with water for at least 15 minutes. Remove contact lenses, if applicable, and continue flushing. Call a physician if eye irritation persists.

**Skin Contact:** Wash skin with mild soap and water. Call a physician if skin irritation persists. Launder affected clothing before re-wearing.

**Inhalation:** Remove to fresh air. Call a physician if irritation, nausea, dizziness, blurry vision or respiratory problems persist.

The DuPont™ StoneTech® Professional product line complies with all federal, state and local VOC regulatory requirements and is packaged in containers with at least 25% post-consumer recycled material.
