General Warranty Guidelines

DuPont warrants to the original owner of a Corian® installation, as provided in the DuPont published technical literature, that DuPont at its option will repair or replace, without charge, such product if it fails due to any manufacturing defect during the first 10 years after initial installation, except for damage caused by physical or chemical abuse, damage from excessive heat or acts of nature. This includes necessary labor charges needed to repair or replace the product covered hereunder.

Residential Warranty

DuPont continues to lead the industry with a strong warranty program and, under certain fabrication/installation conditions, your investment can be covered for a full 10 years to be free of manufacturing, fabrication or installation defects. This warranty is transferable within the 10-year period only when the new owner writes to DuPont (see address below) to register the installation under a new owner's name. The Care and Maintenance tips card will be sent to the new owner detailing the proper maintenance of the Corian® installation.

A copy may be obtained, free of charge, from your DuPont Certified Fabrication/Installation Source or by contacting DuPont; (5) Including seam performance, not appearance.
